

Project development roadmap for AccesSkillers

- Introduction

The project roadmap comprises of participation of hackathons both from IBM and other organizations as well as facilitating virtual workshops with companies with a focus of either IBM SkillsBuild or IBM software.

- 6th April 2024 - Participated in a WatsonX challenge regarding use of Watsonx assistant
- 9th April – selected amongst 300 participants to take part in a hackathon for devising technology to enhance education for UNESCO and emerged in the second position.
- 10th June – Won an award for creation of an application for climate action which minimizes accumulation of waste products from manufacturing industries.
- 21st August – Organized a virtual workshop with a representative from the International Finance Corporation in relation to enabling IFC's Vitae program through IBM SkillsBuild and utilization of IBM software such as Envizi for reporting ESG for energy.

- 23rd August – Participated in a Watsonx challenge regarding use of Watsonx. AI for lablabai
- 26th August – Organized a virtual meeting between an IBM representative (his name is Mr. John Matogo) who is the head of Corporate Social Responsibility of Middle East and Africa with a representative from the World Food Program. The topic of the meeting was enabling access to learning through use of IBM SkillsBuild
- 12th September – Showcased the project of enhancing quality education through SkillsBuild to an representative of GIZ through a virtual meeting
- 20th September – Organized a virtual meeting with Mr. John Matogo together with a representative from UNESCO empowering marginalized communities which UNESCO oversees by use of IBM SkillsBuild.
- 1st October- With assistance of Mr. John Matogo I organized a meeting with a representative from the United Nations High Commissioner for Refugees (UNHCR), the agenda was improving quality of education through use of IBM SkillsBuild
- 2nd October- I facilitated a virtual meeting with people from United Nations Educational, Scientific and Cultural Organization (UNESCO) regarding addressing climate change events such as floods and drought.

This certificate recognizes

John Maina

as part of team

ANCORA IMPARO

for successfully completing the Global Challenge Lab 2024. We believe your solution generates positive impact on the UN SDGs for Sustainable Cities or Climate Action.

Ben Mumby-Croft
Director of Entrepreneurship
Imperial College London

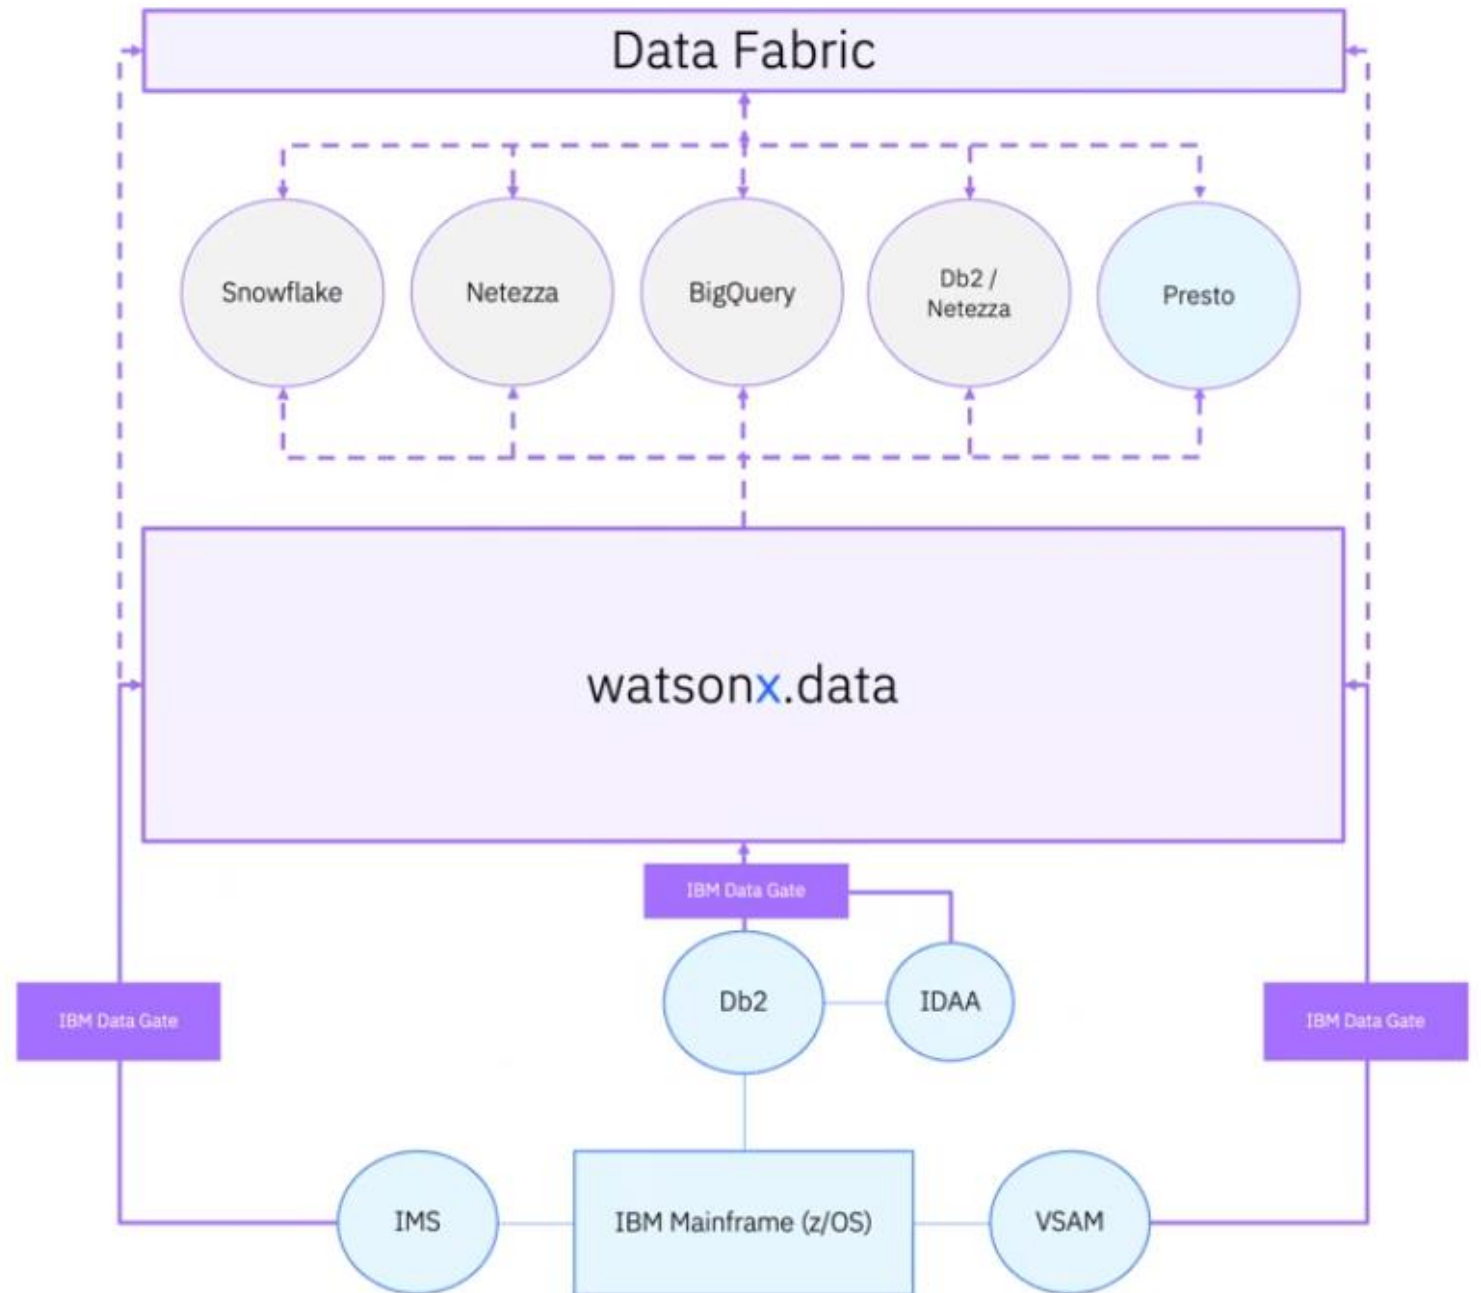

Dr. HAO Xiuqing
Deputy Director of Tsinghua
x-lab (Acting Director)

Dr. rer. pol. Alice Beck
TUM ForTe-Office for Research and
Innovation, Head of Department.

- Future plans for AccesSkillers is to use Watsonx.data with IBM data fabric

- We also intend to create an open data lakehouse
